Table F-11 (continued)
Missouri Transportation Sector Energy Price and Expenditure Estimates by Source:
1970 - 2014
Part I — (expenditures in million nominal dollars)

^a Through 2004, includes kerosene-type and naphtha-type jet fuel. Beginning in 2005, includes kerosene-type jet fuel only; naphtha-type jet fuel is included in "Industrial Sector, Other Petroleum."

^b Liquefied petroleum gases.

^c Beginning in 1993, includes fuel ethanol blended into motor gasoline.

^d From 1981 through 1992, includes fuel ethanol blended into motor gasoline that is not included in the motor gasoline column.

R = Revised data

(s) = Value less than 0.05 million dollars.

— = No consumption, including cases where adjustments were made, where shown.

Note: Expenditure totals may not equal sum of components due to independent rounding.
