Table F-13(continued)
Missouri Production Estimates of Energy in Trillion BTU by Source: 1960-2015

^a Beginning in 2001, includes refuse recovery.

^b Marketed production.

^c Includes lease condensate.

^d Biomass inputs (feedstock) for fuel ethanol production.

^e Other renewable energy consumption used as proxy.

^f Before 1981, excludes biofuels.

N/A=Not available

R=Revised

(s)=Less than 0.05 trillion Btu.
